Discussion was had on the investment fees and those residents being charged the water and sewer investment fees after the 30 days per Ordinance 3-2015 and 5-2015. The length of the RV's was discussed and Councilman Aloisio asked to change the length of the RV to 48 feet if the ordinance is changed. Council suggested to send the information on the changes to Attorney Jim Peck and discuss at the next meeting.

Employee Personnel Policy manual and exempt status was discussed. It was suggested that all department heads and council read the policy and reschedule another workshop in January to make any necessary changes.
